Re: Donations of N95 Masks and Other Personal Protective Equipment During the COVID-19 Crisis

Dear Friends:

As the COVID-19 pandemic evolves, RWJBarnabas Health is doing everything in its power to protect physicians, nurses, therapists, social workers, and all of our clinicians so that they may care for the members of our communities during this tumultuous time. Your generous donation of personal protective equipment ("PPE"), such as vitally needed N95 masks, greatly helps protect our medical team members and, by extension, their families, who are facing risks of serious illness.

Please know, RWJBarnabas Health accepts full responsibility for any defects in the quality or performance of donated PPE, even if such equipment is expired. RWJBarnabas Health will hold our donors harmless from liability due to any claims or demands that are related to any loss or injury to persons or property that may be sustained while using donated PPE.

Thank you again for your donation and dedication to RWJBarnabas Health. It is so greatly appreciated and needed during this historic time. If you have any questions, please do not hesitate to contact me directly.

Very truly yours,

John F. Bonamo, M.D., MS, FACOG, FACPE Executive Vice President, Chief Medical and Quality Officer
